EXAMINER'S AMENDMENT

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 3-4, 7-8, and 11-12, drawn to nucleic acid compositions, classified in class 514, subclass 44.
 - II. Claims 10 and 13-16, drawn to *in vivo* methods for treating a mammal, classified in class 435, subclass 375.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the nucleic acid compositions of invention I can be used in a materially different process than the methods according to invention II. For example, invention I can be used in a diagnostic method for identifying the presence and/or expression of nucleic acid encoding tumor necrosis factor-alpha in sample tissue.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Amy Rinaldo on 10-28-03 a provisional election was made without traverse to prosecute the invention of group I, claims 3-4, 7-8 and 11-12. Applicant in replying to this Office action must make affirmation of this election. Claims 10 and

13-16 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Examiner's Amendment

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amy Rinaldo on 10-28-03.

The application has been amended as follows:

Claims 10 and 13-16 were cancelled, as being drawn to an invention non-elected without traverse.
